To whom it may concern.

I am a subscriber to XM Radio and I am very pleased with what they have done for the radio industry. I am very happy that I can listen to any type of music all the time. It disturbs me that the NAB is trying to attack satellite radio. Please reject the NAB's petition 04-160. I feel that the NAB is just trying to hurt something that has done nothing but good. I don't know how one e-mail will effect your views, but I pray that it does. Thank you for your time and please hear our request.
